

systemtronic datasheet LIT

General description:

Self-supporting vertical panel. In addition to highlighting its function as a screen to separate spaces, it allows the adaptation of magnetic elements on both sides, which makes it an information panel. It is made of steel and coated with polyester paint.

Designer: Pablo Gironés.

Year of launch: 2013.

Technical description:

Materials: Steel.

Dimensions: 450x460x1820 mm 17.72x18.11x71.65 "

mm · inches

FINISHES:

Consult for special dimensions or any other modification.

Maintenance:

-Polyester Paint:

For dry dirt (dust), use a damp cloth. For greasy/oily stains (fingerprints), wipe with a sponge with water and dishwashing liquid. Rinse with a damp cloth. Avoid using products containing solvents and/or pure ethyl alcohol.

-Aluminium-metal-glass-melamine-plastic:

We recommend using normal cleaning products for delicate surfaces. Alcohol, solvents and abrasive agents must be avoided.

Sustainability:

Manufacturing materials are 100 % recyclable. The used paints do not contain solvents, do not consume water and do not generate emissions or waste. The result is a lower environmental impact.
