

systemtronic

datasheet SWIRE

General description:

The SWIRE cable grommet is part of the “office set” by Systemtronic, a series of accessories designed to organize office elements in workspaces. SWIRE allows cables to be neatly arranged through the tabletop, functioning as a window-like opening. Made of sheet metal and available in white, black, and aluminum finishes.

Designers: STC Studio.
Year of launch: 2013.

Technical description:

For its installation, a rectangular hole must be cut into the tabletop. The frame incorporates serrated teeth that allow for better fixation of the cable grommet into the cut opening.

Material: Steel.

Dimensions: 100x240 mm 3.94x9.45"

Finishes:

Matte white
RAL 9003

Satin black
RAL 9011

Aluminum gloss
RAL 9006

Polyester paint.

Consult for special dimensions or any other modification.

Maintenance:

Polyester powder coating:

For dry dirt (dust), use a cloth dampened with water.

For greasy/oily dirt (fingerprints), use a sponge with water and liquid dish detergent (Vim liquid), then wipe with a cloth dampened with water.

Avoid using detergents containing solvents or pure ethyl alcohol.

Aluminum–metal–glass–melamine–plastic materials:

The use of standard commercially available products for delicate surfaces is recommended.

Alcohol, solvents, and abrasive detergents must be strictly avoided.

Sustainability:

The materials used in manufacturing are 100% recyclable. The paints used contain no solvents, do not consume water, and do not generate emissions or discharges. The result is a reduced environmental impact.
